

Cayman Islands Airports Authority

**CAYMANIAN WITH A PASSION FOR NEW CAREER OPPORTUNITY**

**ELECTRONIC ENGINEERING OFFICER - TRAINEE**

**The Cayman Islands Airports Authority (CIAA)  
is accepting written Applications from young Caymanians interested in a Career as an  
Electronics Engineer Officer (EEO) Trainee, in the CIAA's Communications, Navigation & Surveillance  
(CNS) Department.**

Caymanians, including those inexperienced but with a strong academic foundation and a passion for challenges and a willingness to learn, who are interested to be assessed for this new Job, inclusive of a fully funded Apprenticeship position (on the job and external course work) and are committed to a long and exciting career in this demanding post, are invited to apply!

*The CIAA offers a dynamic culture and working environment, augmented by a suite of Benefits including: competitive Compensation, private sector Health Insurance, Pension Plan (6.4%), minimum of 12 days' paid vacation per year and a generous competency & performance-based Learning and Development Plan for all eligible employees in established roles.*

**QUALIFICATIONS AND EDUCATIONAL REQUIREMENTS**

**The successful candidate will ideally have at least one year of practical experience in Computer or Electronic Engineering or Telecommunication. An Associate or Bachelor's Degree, HND or minimum of an HNC in Electronics Technology, Telecommunications or related discipline,**

**Or;**

Above-average grades in English, Mathematics, Physics and other relevant Sciences and three (3) years' experience in Computer or electronic engineering and maintenance of communication, navigational and surveillance systems or Telecommunication.

**These competencies are necessary to assist the Trainee to assimilate and develop intricate theoretical & practical knowledge and experience to function efficiently in a safety critical, technically complex professional environment.**

The successful applicant initially assumes the role of 'Trainee' that, while undergoing training in the practical application of CNS Engineering procedures, he/she will assist the team of CNS Specialists as part of

Cayman Islands Airports Authority

the educational process, with the aim to prepare him/her to become a certified Aviation Electronics Engineer in the CIAA's Communications, Navigation & Surveillance Department

**Salary and benefits:** Salary range for Trainees' is between **CI\$19,220.00 - \$ 36,767.00 per annum (plus the cost of part-time or full-time training)** and will increase significantly upon completion of training and transition from a Trainee to a licensed or certified Electronic Engineering Officer. The exact entry Point along this Range will be commensurate with experience, qualifications, and other relevant attributes of the successful applicant.

Benefits include: all-expenses- paid training, with some components likely being overseas, a contributory pension plan, 12 days' paid vacation p.a. (while a Trainee) and fully paid health insurance for the employee.

**Short listed candidates will need to submit to a pre-employment drug screen, medical exam, as well as previous employment & background due diligence checks and be able to produce a clean police record, as a condition of employment.** Security requirements for this position require that candidates can account for the preceding five (5) years of work history. Any gaps of more than 30 days will need to be explained (even if due to full-time education overseas) as part of the international aviation security protocols.
